## Robosolo

This handpiece, with a renewed design and a touch screen of 3.5", allows targeted treatments in specific fat areas on large parts of the body.

**15.600**  
Microstimulations  
*every minute*

## Robotwins

icoone® is the only device that offers a treatment with two handpieces, allowing a symmetric stimulation, twice as fast and effective as a single operated handpiece.

**21.600**  
Microstimulations  
*every minute*

**2**  
HANDPIECES

**11**

HANDPIECES  
*in total*

**2**  
HANDPIECES

## Robomini twins

The smallest motorized handpieces, now available also in twin function, especially designed to be used on small or hard to reach areas.

**14.400**  
Microstimulations  
*every minute*

## Robomicro

A set of 6 micro-handpieces specifically designed to reach with precision the smallest and sensitive areas, for more personalized treatments.

UP TO **13.200**  
Microstimulations  
*every minute*

**6**  
HANDPIECES

The **NEW icoone® MEDICAL** is the only device in the world that, thanks to the **innovative patent Roboderm®**, allows to treat different kind of skin blemishes through the **Multi Micro Alveolar Stimulation (M.M.A.S.)**, a deep and effective stimulation of the microvacuoles in the connective tissue, that guarantees visible results from the first session.

Thanks to the beneficial power of microstimulations, **icoone® MEDICAL** supports doctors' work with a number of **medical programs and specific treatments** that ensure a perfect tissue mobilization in the underlying skin layers and stimulate even the smallest skin areas.

**+25%**

**INCREASE IN ACTIVE SURFACE**

*To maximize the performance of the treatment, thanks to the micro holes designed on the surface of microstimulators.*

**21.600**  
Microstimulations  
every minute

**ROBODERM®**  
THE NEW WAY TO TREAT THE SKIN

## APPLICATIONS

### SCARS

Draining effect, improvement of skin elasticity and quality in the main scars types: inflamed, not-inflamed, old, surgical or traumatic (e.g. post-caesarean section), acne scars, with a keloid tendency, hypertrophic.

Peri-scar oedema reduction, promotion of metabolic exchange and tissue nutrition, decongestion and metabolic waste removal, prevention of secondary effects like adhesions.

### VENOUS INSUFFICIENCY OEDEMA AND LYPHHEDEMA

Improvement of blood and lymphatic circulation, tissue oxygenation, immediate and long-lasting relief, reduction in edema and fibrosis, faster aesthetic and functional recovery, reduction in the circumference of the limb affected by lymphedema, functional improvement of the limb affected by lymphedema,

### POST-MASTECTOMY

Drainage of the oedematous limb to improve both aesthetic and functional rehabilitation.

### PREGNANCY

**DURING:** Drainage to reduce fluid retention, improvement of microcirculation to lighten the heaviness of legs, prevention of the onset of flaws (e.g. capillaries, cellulite...).

**POST:** Drainage of the affected areas with mobilization of fluids and catabolites, recovery of skin elasticity and tonicity, improvement of the venous and lymphatic system, improvement of cell trophism.

\*icoone® can be used after the third month of pregnancy avoiding the abdomen

### CELLULITE

Improvement of microcirculation to activate metabolic exchange, anti-edematous, improvement of cellular trophism, improvement of skin quality, elasticity and compactness.

## The ultimate TECHNOLOGY in SKIN TREATMENT for BODY and FACE

### **SURGERY**

---

icoone® is the perfect treatment to prepare the tissue before a surgical operation in order to drain and soften the tissue.

On the other hand, the post-surgery treatment helps the recovery by accelerating the healing of the affected area and relieves the pain.

### **SUPPORT FOR LIPOSUCTION**

---

PRE: drainage, tissue softening in order to optimize cannula insertion in the tissue.

POST: early recovery of tissues and harmonization, avoiding the typical wave effect of post-liposuction.

### **SUPPORT FOR INJECTION**

---

PRE\*: to soften tissues, free them from fluids and achieve a good vascularization.

POST\*: to recover from bruises and oedemas.

\*Only doctors can evaluate case by case and decide if it is possible to use icoone® after injection, basing on the substances used.

### **FIBROMYALGIA, MUSCULAR PAIN, TENDON INFLAMMATION**

---

Pain reduction, improvement of the quality of life and motor conduction, clear reduction of inflammation and congestions, tissue recovery after sport, drainage of waste metabolites.

### **FIBROSIS**

---

Tissue oxygenation with better cell trophism that reduces any fibrosis caused by trauma, surgery or radiations in the treatment of breast cancer, reduction of erythema, pain and skin hardening,

## WHAT'S NEW:

*Smaller and more compact*

*New design with illuminated logo*

*Even more performing microstimulators*

*Double Robomini for a symmetric action*

*4 new handpieces for even more customized treatments*

*Ergonomic handpieces holder*

*New software with a more intuitive user interface*

*User guide with translated tracks and instructions*

*New focus programs for face and hands*

*12" Display*

# Skin care improves the quality of life

#SKINEXPERTS

Applicable every day,  
without a limit of time..

Adaptable handpieces to work on every type and  
quality of skin, even the most delicate and damaged.

Patented technology that realizes a two-handed  
symmetrical stimulation.

100% natural.

Reproducible even if the treatment is administered  
by different operators.

Precision in the treatment of small  
and difficult-to-reach areas.

Certain results visible from the first session.

No pain.

SKIN  
EXPERTS

**A meticulous and careful research  
that leads us into the smallest  
secrets of the skin.**

icoone® is the ideal technology for medical-  
aesthetic applications on body and face.  
Thanks to a new, true vision of the connective  
tissue, consisting of billions of three-  
dimensional microvacuoles that cross each  
layer of the epidermis forming a chaotic  
and fragmented structure, it is able to  
effectively treat difficult phenomena such as  
oedema and tissue fibrosis, cellulite and fat  
accumulations.
